Cord Keeper

Print at 100% or Actual Size. Use 1" Square for scale. To make the cord keeper cut one outer fabric, one lining fabric, and one interfacing. Fuse interfacing to the wrong side of the outer fabric. Use the elastic placement marks to sew a 1 ½" length of ¼" elastic to the **right side** of lining fabric piece, this will keep your keeper from falling off your cord when you unsnap it!

Sew the two layers right sides together with a ¼" seam allowance, leaving open 1 ¼" for turning. Clip curves (I like to use pinking shears). Turn right sides out and top stitch ⅛" around the edge, sewing the opening closed. Use the placement guide to place snaps or sew Velcro for a closure.
